

GENTEX CORPORATION

August 1, 2022

Effective September 1, 2022, as reflected in the table below, we are updating pricing on the S1209, CO1209 and GN-503 series smoke and smoke/CO alarms due to supply chain cost increases and changes in component availability.

<u>Part #</u>	<u>Current List Price</u>	<u>New List Price</u>
S1209	\$70	\$77
S1209F	\$75	\$83
CO1209	\$68	\$75
CO1209F	\$82	\$91
GN-503	\$88	\$97
GN-503F	\$104	\$115
GN-503FF	\$114	\$126

Gentex has always worked hard to maintain pricing consistency across our various product lines, and appreciate the continued support from our valued customers.

This letter is also to notify our key customers regarding upcoming changes in the availability of our 7139 series alarms.

We have limited supply remaining of our 7139 Series alarms (7139LS, 7139CS-C and 7139CS-W) and they are subject to further availability. They will be made obsolete later this year after supplies are exhausted (timing likely Q4 2022), due to lack of further component availability. We currently do not have clear timing on when the next generation replacement products will be available, so we urge our customers to make their last-time buys accordingly.

We sincerely appreciate your continued support of Gentex products during this transitional period. We will continue to honor any previously quoted pricing on the smoke alarm models above if the order is placed within the next 60 days, as long as verification of the quote is provided.

Thank you for your continued support.

Best regards,

Dave Christian
Sales Director
